Ministerium Group Visit One Kaiser Plant

Ten members of the Bristol Ministerium were guests of Kaiser Metal Products, Inc., this week on a tour of the company's aviation and commercial production facilities. The tour was arranged by the Rev. Glenn Wampole, pastor of the Zion Lutheran Church, head of the ministerium's program committee.

The visitors watched giant presses in Plant One stamping out large and complicated metal parts, then followed them through the assembly and porcelain enameling operations where what had been plain sheets of steel emerged as kitchen cabinets, sinks, bathtubs and similar products.

The ministers also were given a close-up of aircraft components production in the buildings where KMPI is fabricating jet fighter fuselages and jet bomber wings. The tour was interrupted frequently as employees who are members of the various pastors' churches stepped up to shake hands.

Hunted Man Matched Wits With Law for 30 Years

Veteran Criminal and Bank Robber Has Served Terms In Many States

This is the final article in the International News Service series on the FBI's 1953 list of the nation's "Ten Most Wanted" fugitive criminals. Today's article spotlights Henry Randolph Mitchell, daring bank robber and only holdover from the original INS series on the top desperadoes, distributed three years ago.

By James Lee (INS Staff Correspondent)

WASHINGTON, March 14—(INS)—Henry Randolph Mitchell, a bold and cunning criminal who has matched wits with the law for nearly 30 years, has been a hunted man since Jan. 21, 1948.

On that date, Mitchell and a confederate, flourishing guns, robbed a Williston (Fla.) bank of \$10,353. His accomplice later was captured, but Mitchell, known in the underworld as "Little Mitch," eluded pursuit.

The FBI has this to say of the 57-year-old Mitchell, who has served prison terms in Kentucky, Georgia, New York, and Florida:

"He is a veteran criminal, a professional whose acts provide an endless chain of the same forces recurring in the line of march. He returns time and again to prey on society. His time may be running out."

Mitchell is believed to be armed. He is considered extremely dangerous. The search for him has been concentrated at race tracks and in gambling resorts, for he is known to be an ardent disciple of lady luck.

The fugitive's criminal habits are varied. He has been convicted of grand larceny, violation of narcotics laws, breaking and entering, and forgery. He had been released from the Florida State Penitentiary just one month before the bank robbery.

State Finishes Survey Of Bucks School Systems

County Has Been Working On Basic Idea of 13 Administrative Units

State officials yesterday completed their survey of the joint-school-board system of school administration in Bucks county. It was announced today by Dr. Charles Boehm, county superintendent of schools. The first report of the recommendations resulting from the survey will be made April 6, Dr. Boehm said.

This survey is part of the statewide survey that resulted several weeks ago in the "freeze" order, holding up approval of new school building projects.

Dr. Boehm said that the county office has been working on the basic idea of 13 administrative units for some years. This plan he said grew out of a 1947 act of State Legislature which favored the creation of joint school districts.

Recently members of district school boards were in Doylestown describing their existing facilities, the buildings that were to be constructed and the buildings that had outlived their usefulness. The state surveyors are interested in administrative units of a minimum of 1600 pupils. According to Dr. Boehm, all but two of the districts in the lower Bucks county area are composed of administrative units of more than the minimum number of children except that the Delhaas district and the Council Rock district administer only on the secondary education level while the elementary grades are under separate administrations.

This phase of the survey, when completed, will be an evaluation of the system under the joint board set-up, according to Dr. Boehm.

Muddy Course: A Hole in One

By the "Stroller"

It's a "rough-going" for tradesmen in Levittown these days, but those who only go from door-to-door can't complain. It's those whose business takes them inside the houses that have their difficulties.

One reporter in making several calls for interviews yesterday, saw housewives look askance at his shoes—laden with Levittown mud.

Two of the housewives invited him in, but said: "You'll have to take your shoes off." "I didn't mind that so much, but I had a hole in my sock", he explains.

Her experiences have been followed with much interest by the church as she has encountered life among the headhunters of Borneo. During World War II Mr. and Mrs. Siraq, with their two small sons, were stationed as missionaries in the Orient, when the Japanese, captured them and placed them in one of the Japanese concentration camps. When Mr. Siraq died of starvation in the camp, Mrs. Siraq and her two boys were set free. She returned to the United States suffering from malnutrition and broken in health. She placed her sons in Christ Home, Warminster, and when sufficiently recovered, returned alone to live among the Dyak tribesmen of Borneo. Although these tribesmen were vicious head-hunters, she labored alone and led a number of them to an understanding of the truth of the Christian message. A "local" church was formed among the natives who had been trained by her to carry out the gospel and that church exists today. Mrs. Siraq has been in this country for a short time and plans to return soon to Borneo where there are now five other Americans in the mission compound.

Accounting Firm Suing Business in Yardley

Charles E. Metz & Son Are Defendants in \$630 Claim Filed at Doylestown

DOYLESTOWN, Mar. 14 — A Phila. accounting firm is suing a Yardley business for services rendered professionally in income tax work and accounting and additional services, according to an action in assumpsit filed in the Court of Common Pleas here.

Charles E. Metz, Jr., and Charles E. Metz, 3rd, trading as Charles E. Metz and Son, Yardley, have been named the defendants in a \$630.46 claim filed in the Prothonotary's Office here.

Plaintiffs, Oscar V. Wallin, Murray C. Hotchkiss, Philip G. Zink, Harry H. Wolf, George D. Wolf, Jr., and Frederick H. Sommer, trading as Wolf and Company, 1616 Walnut st., Phila., in a statement of claim, allege that they performed accounting and income tax work for 1946, 1947, 1948 and 1949 records for the Yardley defendants.

The plaintiffs further allege that they worked for the Yardley concern from March, 1950, to July 31, 1950, putting in 478 man-hours. They submitted a bill of \$3,187.59, and there is a balance of \$587.59 which is unpaid.

The Philadelphia accounting firm also alleges that in August, 1950, they performed additional services and the bill is for \$42.87.

The plaintiff's claims include the \$587.59 bill and the \$42.87 bill and they seek interest from Jan. 24, 1951, on the total claim.

Neighborhood Center For Shoppers Is Being Planned

Of Undisclosed Size; To Be Built Along the Emille-Fallsington Road

A Levittown "neighborhood shopping center" of undisclosed size, but believed by informed sources, to be several acres in area, is to be built along the Emille-Fallsington road in Bristol township, adjacent to Falls township it was learned today.

The "center" which it was learned is expected to be in operation by late fall, was said to be one of three such neighborhood units. Two other units are proposed to be planned for the future, but their size and location is not known at the present time.

Details of the shopping center, and the stores which will serve the people in the area are to be disclosed at the meeting of the Levittown Civic Association, March 17. At a meeting of the Association's "ad hoc" committee and the Levittown concern last week one of the topics believed to have been discussed was the shopping "center".

Much speculation has arisen concerning the exact location of the center. Some sources have viewed the request of Oliver H. Marron, identified by a spokesman of the Levitt and Sons, Inc., as the firm's vice president, for a change in zoning of five acres of land from residential to commercial along the Emille-Fallsington road in Bristol township. They feel that such an area might be a satisfactory location for the center.

A spokesman for the Levitt concern said that he could not comment on the reported shopping center. He said that Marron was in Florida and was therefore not available for comment.

Items Collected and Made By Clubwomen Exhibited

Hobby Show Held By Travel Club; Speaker for Day Is Palmer Sharpless

"The Value of Hobbies" was the theme both of an address and an exhibit when a hobby show was sponsored yesterday afternoon by the American home section of The Travel Club.

Small tables arranged at the front and along the sides of the club room were filled with articles which interest members of the local women's club. The display bore out the fact that most members have a hobby and in many instances more than one. The display included "collections", also articles which members have made.

The guest speaker was Palmer Sharpless, head of the industrial arts department of George School, Newtown. Introduced by Mrs. Ernest Lawrence, Jr., chairman of American home department, Mr. Sharpless reminded that a hobby "is a continual growing interest" in those things which occupy attention of the individual. He mentioned various categories into which hobbies fall—collecting ("a fascinating phase in which almost anything that interests the individual might be collected"); creating, such as painting, working with plastics, wood, clay, metal, cloth, etc.; attendance at and participation in sports, and so on.

Mr. Sharpless surprised the group by stating that the "first ranking hobby in the United States, when number of participants is considered, is photography, with wood-working and needlework near the top of the list."

The speaker reminded that "parents should see that children get the chance to try out a good many things, starting at an early age. Hobbies must grow from natural interests. When forced on one, they usually do not take hold." He added that "the thing that makes a hobby most delightful is to discover something new in it. Don't be afraid to experiment in a hobby or develop it in a new direction."

The club members who had exhibits and the items displayed are as follows:

Mrs. Scott Wetherill, oil paintings, knitted stole, crocheted Afghan, cross-stitch cloth, the latter 2 being designed by her; Mrs. Margaret D. CANADIAN HAPPY STATE

Americans with an eye on the absorbing drama in Washington which revolves around the question of cutting or not cutting taxes must have felt as though someone had hit them when they weren't looking. Behind their backs the Canadian government blithely announced an 11 per cent cut in personal income taxes and cuts of varying size in corporation and sales taxes, including the tax on cigarettes.

As Canadian Finance Minister Abbott explained, Canada is closing its books on another year of "prosperity without inflation." Americans may take a sharp rather than envious look at Canadian operations when they are told that the government to the north has been reducing its national debt by nearly \$2,500,000,000 annually. A comparable feat in Washington would take a \$30,000,000,000 chip off the national debt each year.

How do the Canadians do it? Well, they let their economy go free wheeling along with a minimum of controls and strings, their defense outlay, proportionally, is less than half that of this country. They have had the good fortune to uncover trepidulous natural resources, both in petroleum and uranium bearing ores, at a time when half the world is desperately looking for new sources. Hence there has been a tremendous influx of foreign capital, most of it from the United States. They have had record harvests, exports and consumer expenditures.

But who is to envy a man who parlays his possessions into a big stake and skins off the cream that is rightfully his?

DIG DOWN, YOUNG MAN!

The way Representative Engle of California tells it, the young man who spends his time panning old gold diggings and hunting new ones is wasting it. Gold production during 1952 in California was worth \$8,874,355. The winter carrot crop was worth \$8,978,000.

Carrots are a good enough food, it is said, and there is little doubt that they have a place in the scheme of things. But comparison between carrot mining and gold mining as to romance or lure would be odious. The fact that rabbits don't wear glasses, as a colleague points out, proves that there may be gold in them carrots at that.

The horrible thought intrudes that three-dimensional films may do to the careers of actors without three dimensions what the talkies did to those without voices.

Protests from "do-gooders" may be expected to follow revelation that unruly federal prisoners no longer are put on bread and water but are given a continuous diet of spinach.

Today's Quiet Moment

By the Rev. Edward G. Yeoman's Pastor, Bristol Presbyterian Church

Prepare us now, our heavenly Father, as we shall plan to enter Thy sanctuary on the morrow. Forgive us for our misdeeds of this past week. If we have failed Thee, help us to overcome our failure with accomplishment and achievement. If we have done that which we should have left undone, help us to refrain from so doing in the future. If we have left undone those things which should have been done, enable us, we beseech Thee, to have that courage and that wisdom to do and not leave undone Thy will. "I will come into Thy house in the multitude of Thy mercy; and in Thy fear will I worship toward Thy holy temple." Be with us, bless us, and "Let the words of my mouth and the meditation of my heart be acceptable in Thy sight, O Lord, my Strength and my Redeemer." Amen.

NEWS OF THE LEVITTOWN COMMUNITY

Pebble Lane Resident Has Lenten Dish Suggestion

Mrs. Dorothy Brown Gives Recipe for Cottage Cheese Rice Croquettes

The following recipes were given to us by Mrs. Dorothy Brown, 11 Pebble Lane, Levittown. The first is very interesting because it is labeled "For the Small Fry to Do."

Muffins (for the small fry to do)
2 cups flour (all purpose) sift once then measure.
2 tsp. baking powder
1/2 tsp. salt
4 tbs. sugar

Sift flour again with baking powder, salt and sugar. Better sift into a large bowl.

1 egg, beat, but not too much
1 cup milk
4 tbs. fat melted

Add milk and melted fat to egg. Pour egg mixture into bowl with flour. Stir all ingredients until thoroughly blended. Do not beat. Do it short and snappy. Fill greased muffin cups 1/2 full. Place in preheated oven at 425 for 15 to 20 minutes.

This next is for a cake that Dorothy says is feather-light and has a wonderful flavor.

3 eggs
1 cup sugar
3/4 cup hot applesauce
1 1/2 cups cake flour
1/2 tsp. salt
1 tsp. baking powder
1/2 tsp. soda
1 tsp. cinnamon
1/2 tsp. nutmeg

Beat eggs until thick and light. Add sugar gradually and beat until sugar is dissolved. Add applesauce and beat well. Add dry ingredients which have been sifted four times. Beat until smooth. Bake in ungreased 9 inch tube pan in slow oven (325) for 55 minutes.

This next recipe is a timely one for Lenten meals.

Cottage Cheese Rice Croquettes
1 1/2 cups cottage cheese
2 cups boiled rice
1 1/2 tsp. salt
2 cups soft bread crumbs
2 eggs
Dry break crumbs
2 tbs. milk

Combine cottage cheese, rice, salt, bread crumbs, and one egg slightly beaten. Shape like cones and roll in the dry bread crumbs. Dip in the remaining egg, beaten slightly and mixed with the milk. Roll in crumbs again and allow to stand for a few minutes. Fry in deep hot fat (385) until golden brown. Serves six.
